Professional Experience and Curriculum Vitae
Richard Mountney Photography Ltd is there to facilitate all of our clients visual requirements and often achieve the possible.
Richard is an award winning professional advertising photographer specialising in, (but not limited to) still-life, drinks and liquids with more than 40 years experience. Richard's attention to detail and an adept understanding of light manipulation and attention to detail, gives his imagery a refined and polished quality.
These skills had a natural progression into the realm of video and commercials and I hope you agree that the results speak for themselves.
Situated in Edinburgh, Scotland. Richard works out of his own 2500 sq.ft fully equipped studio and does all retouching in-house. That doesn't mean he's stuck in the studio, Richard is well experienced and ready for shooting out on location.
