Professional Experience and Curriculum Vitae

I have worked for the last 15 years, in the entertainment to manufacturing industry, as a jack of all trades from graphic, illustrator, product/package designer. Recently I was working as a branding/package designer for several companies in California, there I would be designing new logos and imputing them on to new package and labels for retail. I was redesigning and developing package designs for LED lights to it's pet novelties, and then developing concepts for a division of beauty products. As a package designer for several different brands, I was creating from concept, to develop and final production for projects: like logos, newsletters, print ads, toy(child and Adult)package design and even t-shirt apparel design.

Previous Clientele

Mattel
Hasbro
Paper Magic group
