Professional Experience and Curriculum Vitae

Born in North West England, I studied Art Textiles and Art to A level, exploring a range of techniques, but ultimately finding a real passion for paper and textile based work, in particular paper collage.

Now living in Madrid, Spain, I work mostly in collage, but am still interested in the combination of paper, stitch and text and occasionally combine them in my work.

More information can be found on my website: http://www.rough-around-the-edges.com/?page_id=51
