HOMELESS PEOPLE AND RECYCLING IN THE UK

Statistically there are over 550 000 homeless people in England. There are more than 400 000 "hidden ones". These people have no homes, no salaries. They are people just like you. But they help the environment more than you think.

They Recycle YOUR rubbish.

IN BRITAIN ONLY A SMALL PART OF THE WHOLE RUBBISH IS RECYCLED.

There are more than 300 million tonnes of rubbish generated in Britain every year. The numbers are growing.

40 million tonnes are coming from different households

- Organic 4,108,255 tonnes
- Mixed 581,143 tonnes
- Wood 661,725 tonnes
- Glass 1,139,577 tonnes
- Plastic 1,433,511 tonnes
- Paper 2,587,653 tonnes

ONLY 35% OF THE POPULATION ACTUALLY RECYCLES.

35%

FACT

HOMELESS PEOPLE RECYCLE MORE THAN YOU DO

They live by recycling. It's their only way of surviving the cold and hunger.

This much

65% OF THE HOUSEHOLDS DON'T KNOW HOW TO RECYCLE

Are you one of them?

Are you doing the right thing?

Be proactive. Choose now.

Having no time is a bad excuse.

This planet is your own home.

RECYCLING

- Reduces Landfill
- Reduces Energy Consumption
- Decreases Pollution
- Reduces Cost

HOW TO RECYCLE

- Separate your rubbish by type
- Turn them in at a recycling facility
- Throw them out in the designated recycling bins
