Professional Experience and Curriculum Vitae

My name is Rudolph Horvath and I am a self - taught artist, creating artworks for corporate and individuals interiors & collections.

My works are on the trail of fantastic and surrealism. Most of the inspirations for generating my art comes from film, music and popular culture.

Technique that I use for creating my artworks is photography, which I am adding, developing and processing in various computer programs, giving it an entirely new expression. After choosing the theme, I begin to work on selected photography, until I am completely satisfied with a composition of the piece.

Feel free to take a look at my works, and if you find something that seems interesting, please contact me trough email : klatau.ruda@gmail.com
