Professional Experience and Curriculum Vitae

I'm a cinematographer, director and producer from England who works worldwide. I involve myself in as many creative areas as I can. I will film anything (within reason) and enjoy working within a team. A lot of my work comes from the music industry, however I don't really like to pigeonhole myself into single categories. We all need to be flexible in our fields. My aspirations are firmly set towards feature films (fictional and documentary) and directing bold, inventive and inspiring concepts.

My other loves include surfing, music, swimming, great times with my good friends and good bone structures. I'm a film geek. I try to twist many things in my life with as much dry humour/weird humour as possible.

Previous Clientele

Warner Music USA, Universal Music Group, EMI, Microsoft, Rawpower Music Management, Rise Records USA, John Lewis, Obey.
