Professional Experience and Curriculum Vitae

I am a multi-talented graphic designer who has been in the design field for many years. I am proficient in a number of software applications including Illustrator, PhotoShop, InDesign, PowerPoint, Word, AfterEffects and Flash. I have worked on everything from print design to motion graphics, creating interactive interfaces, designing books, posters, templates, policy documents, logos, presentations, magazines, invitation, ads, and brochures.

I am a graduate of Corcoran College of Art and Design in Washington, DC. While at the Corcoran, I majored in Digital Media Design with a concentration in film, video, and web design. I also took full advantage of various fine arts and creative writing courses the college had to offer which has made me a well rounded designer.
