## **Professional Experience and Curriculum Vitae**

Sakke Soini draws his main inspiration from the brightness of Japanese pop culture, the warmth of the 70s and the current vibrant electronic music scene in Europe.

After graduating with BSc in International Business he decided to take some time off to pursue a career in design. Combined with a global way of thinking, high creativity and a constant drive to better himself, he is hoping to leave his mark on the international design community.

He is currently working as a freelance illustrator and a web designer. He is also one of Finland's most sought after VJs and has worked with a wide range of international artists.

Right now he is balancing his time between Finnish cities of Helsinki and Turku.
