Professional Experience and Curriculum Vitae

I am a designer 11+ years studio experience as a Graphic/Web Designer. I am creative, skilled, and very down-to-earth with a sense of humour and an eye for detail. I'd describe myself as a Graphic Designer that has a genuine enthusiasm for web design and making information work for people.

Firstly design is my biggest interest, it isn't just my job, its my hobby as well and is something I do in my spare time. Music plays a big part in my life, I don't play any instruments but a lot of my friends do in one way or another so I spend a lot of my time going to support them and the local music scene in general other interests include: ancient art, the internet, photography and travel. I am also learning Italian at the moment.

Previous Clientele

Cisco, Yellow Pages, Barclays, BP, GSK, Ford, NationalGrid, Logica, Mercedes Benz, Met Police, EDF, BT, Nestle, Unilever
