Professional Experience and Curriculum Vitae

Over 25 years as an art director / creative director / copywriter makes Sam Lowe one of the most brand-savvy and message-smart photographers you can hire. Sam has contributed on major brands from consumer package goods to pharmaceuticals, and his work has been seen in virtually every medium.

Initially trained as an illustrator, with supporting studies in psychology, Sam knows how to seduce, tease, and inform a viewer. A seasoned vet at shepherding brand imagery through complex regulatory mazes, he also knows that your visuals can imply what your editorial copy can't say outright.

More than a visual vendor, Sam is a business-oriented visual developer who can assist you or your teams in developing a concept, manage the production of the imagery, and deliver work that understands production parameters.
