Professional Experience and Curriculum Vitae
// Born In Oldenburg, Germany in 1983.

My work eternally explores and expresses my personal love for drawing and observing animals and the planet we live on … bathed in all the shades of human emotion.

In a wider sense 'I' ,a human creature with the gift of reflection, also hold the responsibility to create a visual language and find a way to tell the story of our world as I see it. For you to view and think about!

? ? ?

"The wonderful illustrations that Sandra creates have all the hallmarks of a first class illustrator and a force to be reckoned with. Her animals are not just superbly crafted and observed but the style and aplomb with which she gifts us these images is undeniable. Her work conjures up the deep stirrings of childhood stories and half remembered fairy tales giving an earthy deep-rooted feeling of forests and mystery. Her work screams at as to look with its combination of aching beauty and elegant composition. Her work is strong and subtle and this allows her to introduce humour and light-hearted fun whilst preserving beauty and artistry. A real treat, and an illustrator's illustrator!"
(Natsuki Otani of Illustration R.)
