Professional Experience and Curriculum Vitae

Sarah Jordison is a visual artist working with gouache and inks. Her paintings explore how complementary colour fields can create depth of field.

Inspired by a trip to Paris in 2014, Sarah is currently painting scenes from the Palace of Versailles. Her Château de Versailles series is a departure from traditional depictions of the estate. Bright and bold, the paintings use oversaturated colour and textured marks.

Sarah currently lives in Canberra Australia and paints in her spare time.
