Professional Experience and Curriculum Vitae

My name is Sarah and I've always been a creative person. Originally from Seattle WA, I currently attend Ringling College of Art and Design in Sarasota, Florida. I am interested in finding solutions as I believe good design can positively impact our world. I would love to work in branding and identity design and also user interface design. I strive to develop solutions that are inviting and interesting but also reflect the core values and goals of the client.

Previous Clientele

Ringling College of Art and Design
