Professional Experience and Curriculum Vitae

Are you having an identity crisis? I have a solution for you.

I'm a forward thinking versatile designer who listens first. I have a modern and witty minimalistic approach. I embrace opportunities, welcome criticism and I know my limits. From ideation to application, I aim to communicate messages and create experiences.

My specialties include but are not limited to corporate & brand identity, logos, promotional design, and commercial print. I combine visual elements and typography using the grid system.

I have a good attitude and a great sense of humor. I have an Associate Degree in Communications and Photojournalism and a Bachelor of Fine Arts in Graphic Design

Previous Clientele

"Like oratory, music, dance, calligraphy – like anything that lends its grace to language – typography is an art that can be deliberately misused. It is a craft by which the meanings of a text (or its absence of meaning) can be clarified, honored and shared, or knowingly disguised."
