Professional Experience and Curriculum Vitae

clichéCurrently an undergraduate at the National University of Singapore, I am pursuing my degree in Social Sciences, majoring in Communications and New Media.

I have had a keen interest in art and design since young but have not had many chances of exposure as I was from the Science stream in high school and junior college. Coming to university, I had my first brush with designing with Illustrator and fell head over heels with it (pardon the cliché).

From then on, I have been actively seeking creative opportunities such as joining competitions and also designing for the school's publications and various events.
