Professional Experience and Curriculum Vitae

Shawn McCann is an illustrator that grew up on the plains in North Dakota and currently lives in the Twin Cities. He is a graduate of the Minneapolis College of Art and Design and has worked on projects ranging from children's books, product illustration, magazine spreads and other areas of the illustration world. "Illustrating children's books is one of the great things I love about being an artist. Being able to create a rich environment of color and texture that engages kids is the driving force behind my work. For there is nothing better than opening up an entirely new world each and every time a child opens a book. Having attended The Minneapolis College of Art and Design, I was taught that the sky is the limit. Wherever your imagination will take you is where you need to be. Children's books allow that very notion and I wouldn't have it any other way!"
