Professional Experience and Curriculum Vitae

Timothée Mathelin aka shift. is a graphic designer specialised in photomanipulations. He is fascinated by modern tenses, resulting in his inspiration for his artwork and photography being hyper futuristic.

Whether it is an apocalyptic future, a fantasy future or just what shift.'s idea of the future might be, he has an incredible attention to detail that keeps your eyes moving all over his work, searching for something new and always finding it. His artwork includes photography, graphic design and some video, all of which are showcased on his website as well as the numerous exhibitions he has been involved with.

He has worked for many clients from all over the world, especially in the music industry, including music labels such as Ad Noiseam Records, Soot Records and Jarring Effects.
