## Professional Experience and Curriculum Vitae

A little bit about me: I'm Sydnee Davidson and I'm graphic & motion graphics designer for a Reality TV Production company. In 2005 I graduated from The Art Institute of California - Los Angeles with a Bachelor's Degree in Graphic Design. Creativity has always been a part of me, whether it's on a computer or with a paint brush, or whether it's having to improvise to solve problems. I try to apply my various interests and hobbies to everything I work on, and it's my goal to make sure that everyone is happy with my work.

**THE CURIOUS WORLD of Kassië Keith**

**JAIL CELL DOOR TABLES**

**TRICHOCEPHALUS RUFFLE-FISH LAMPS**

**3D FIBER LOGGERS FOR CUSTOMER SERVICE**

Each episode of **THE CURIOUS WORLD OF KASSIË KEITH** focuses on Kassië as the custom-build projects for their clients, each taking her sculpting specifically strong. One week Kassië's building a bench with a 1920s art deco vase for a restaurant owner's girly estate, the next she's

scouring cells from obscure Disney films to turn into a massive collage for the interior designer's Seattle home.

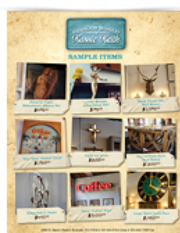

Once she's got her three missions for the week, Kassië hits the streets to find vintage pieces to transform. She's got contacts all over, from Jaybirds to flea markets to private collectors. And from 1980s concrete-killing to a portable Gold Bond shaver, each item has a story to tell. But the histories are only part of the fun - seeing what Kassië transforms each item into is the heart of each episode.

Every episode ends up at Kassië's workshop, where she paints, brands, welds, cuts, and redefines the items she's found into exciting new pieces. We see each item go from start to finish, with Kassië and her team tackling challenges as they arise. Each episode ends with three incredibly pleased clients as Kassië presents them with one of a kind items they can't get anywhere else.

**THE CURIOUS WORLD OF KASSIË KEITH... let you see some strange things in store.**
