Professional Experience and Curriculum Vitae

We have been artisan goldsmiths since 1983. Our lab is in Udine, Italy.
In the last few years we have been following an idea that brings together the passion for our work, the talent for drawing and imagination and the love of books and art.

Previous Clientele

Our goal is to give warmth and a soul to our little gems, trying to instill the same emotions we feel while creating them.
In each and every one of them, whether they are designed by us or inspired by the greatest artists, whether you designed them personally, for yourselves or your loved ones, and in the beauty of the slightest imperfections, you will always find traces of our love.

Awards and Accolades

Please kindly get in touch for more information.
