## Professional Experience and Curriculum Vitae

My trademark is visual communication with particular emphasis on combining Graphics and Photos from Print to Digital Media solutions. Personally I'm drawn to the rush of a creative work process and in my spare time I get a rush out of rock climbing, cultural experiences and when I'm on the road with my camera. Challenges, excitement, immersion and reaching a goal are the things that drive me. It's hard work and its fun!

## Previous Clientele
