## Professional Experience and Curriculum Vitae

Soemone aka Pierre Doucine defines himself fully in this dynamic generation for which freelance and Internet are major words. Applying long hours of work he recreates a strange reality into an image full of strength and movement. Pleasure is a main concept in his creations : developing, testing, improving, over and over again... To finally set the picture in it's dynamic feature. He must dismantle, rebuild, adapt, add material, apply colors to stand out. His accomplished list of clients only confirms the curiosity and interest of an audience that's been significantly growing through the years. ( Graffiti Art Mag ).
