Firegirl and Waterboy is an addicting TEAMWORK and fun game for two players. Help Firegirl and Waterboy to find the exit through the temple. Firegirl must avoid the water and Waterboy must avoid the fire, and be careful, spikes kills them both! You can collect bottles for extra points!

Features

-Single player mode: Now you can play all levels by yourself tapping on character icon to switch between Firegirl and Waterboy.

-Cross-platform is available! Now you can play with all mobile devices!

-All levels are updating frequently. We suggest that you check the game every day and don't miss any updates and new levels! (You must quit and re-start the app to check latest updates!)

Notes

-Because of this is an online multiplayer game, you can play with a Google account which is logged in OR you can play without a Google account, as a Guest too!

-We always care about and read our players' reviews/feedbacks and try to improve our app in this direction. Please continue to share your positive and negative comments.

-You can try to delete and re-download the app if something wrong happened.

Details and Instructions

The game Fireboy and Watergirl is one of the most popular two player games by children out of the variety of online games and flash games.

Watergirl and Fireboy continuously find themselves in mysterious temples, each time trying to get out of them. To escape they must solve puzzles and collaborate with each other. You can either play alone and move each character at a time or try to move them together at the same time. But it is much more fun to play the game along with a friend or a sibling, so that each is playing as a different character. (Some people confuse and think that the game is called a waterboy and firegirl or a child of water and child of the fire).

Fireboy and Watergirl is probably the most popular online game, so much that they made it into a game series. The game has two characters – a male character made of fire and a female character made of water. This game could be played by two players using the same keyboard AWD keys to control the water girl while the arrow keys control the water boy. Let's see who finishes first. Check more about these games here.
