Professional Experience and Curriculum Vitae

With three years' experience gained as a full time Print Designer and Illustrator, an award upon graduating as 'New Designer Most Original New Talent', and an array of freelance projects undertaken in my spare time, I have developed an ability to present my ideas with originality of thought and individuality. I have been involved in the production of designs for fabric, paper, ceramics, interiors and giftware (both placements and repeated all-over prints), developing my ability to work in a broad range of styles and adapt to individual briefs. I also have a broad knowledge of Illustrator CS2 and Photoshop. My presentation and communication skills have been refined through lectures delivered at Nottingham Trent University and Southampton University. The nature of my previous roles in design studios has given me an understanding of the need for commitment, compromise, planning and organisation whilst working as a member of a team. Having just returned from 7 months of travel, experiencing different lives, languages and cultures, and documenting my experience through photography, I feel ready to settle back into the world of work, refreshed and equipped with my new skills! I would love the opportunity to bring my creative and communicative skills, along with my passion and aptitude to a new role.

Previous Clientele

The Museum of Modern Art (New York), Bench, Paperchase, Gap, Stussy, Vans, Adidas, American Eagle, Eastpak, Reebok, Boots, Topshop/Topman, Billabong, Abercrombie + Fitch, Hennes and Mauritz (H+M), Speedo, Habitat and Ikea.
