Professional Experience and Curriculum Vitae

So Real Media, LLC is a veteran owned and operated small business, born and raised in the heart of Kentucky. We exist solely to take you to new heights, opening new doors for you allowing the utilization of e-commerce, your very own web presence, state-of-the-art printed marketing materials, and an overall branding that will gain your business the same level of marketing power that leading large corporations use to dominate their niche.

On most projects we start with the fundamentals, a pen and ink sketch. From there we fine-tune the basic principles to cover everything that you want and need in your concept. To better serve you, we have put together a five-phase process that applies to web design and most other projects that you may seek.

Previous Clientele

My Daily Fruit
Skytop Servers
Marketing HUB
STAX Nutrition
