Professional Experience and Curriculum Vitae

I am a Senior Designer / Art Director currently employed at Young&Rubicam Cape Town, South Africa. I specialize in Corporate Identity creation, Packaging, Print media, illustration and love a good magazine layout if it comes my way or the concept lends itself to it. Social Media is also becoming a strong focus with the changing dimensions of design today. Sustainable and ethical design are my striving force. Here to change the way people see their world, for the better of both our environment and mankind. Ocean-minded, Lifetime-Surfer not scared of the big stuff, African bush-wanderer, adventurer and avid fisherman.

Previous Clientele

Archilab Architects
