Professional Experience and Curriculum Vitae
Stephanie’s drive to make images hinges around her love of ideas. While studying at the School of the Museum of Fine Arts, she realized that photography was a natural medium for someone who needed to capture 36 ideas in a burst of a few minutes. Every variation could be tried, and referred to later. What began as a more efficient sketchbook for her painting became the passion that propelled her into what has become her career.

After working with some of Boston’s best creatives and talent, she has come to terms with her photographer’s desire to control everything--so she can put it in a box and get excited when something amazingly unexpected happens. Stephanie’s mantra for shoots is that forethought and flexibility result in a worry-free production and fosters the creative process.
