Professional Experience and Curriculum Vitae

My work is mostly character and narrative driven, often involving large, isometric detailed landscapes and scenery. I try to put my own spin on the isometric style, because illustrators like eboy and Rod Hunt have already established themselves at the top with this style, so it's hard to stand out.

He is one of the founding members of design portal 'Thunder Chunky' – specialising in showcasing new and innovate work by a variety of international artists, covers news from the design world.

Stephen is also a Tiger AKA (Asian Kinetic Artist) apart of the International Tiger Beer / Tiger Translate project, an Artist at Blood Sweat Vectors, a renowned vector artist collective with the likes of 123 Klan, J3 Concepts and Niark1, a part of the Illustrators collective / groups The Mighty Pencil, the Designers of Asia collective, made up of rising stars from Asian illustration, and last but not least Brothers of the Stripe, who are currently taking over UK.
His works have been in several magazines and books, exhibited nationally and internationally, in London, Berlin, Boston, Beijing, Tokyo, Kyoto, Manila, Melbourne and several other cities.
