## Professional Experience and Curriculum Vitae

I was one of the top fashion photographers and studio owners in New York City in the 70's, 80's and into the 90's. I photographed fashion, beauty, and lifestyles for magazines such as Harper's Bazaar, GQ, Town & Country, Esquire, French Vogue, The New York Times, and cosmetic ad campaigns for Revlon, Chanel, Almay, Avon, and others. I also spent 7 years living and working as a fashion photographer in Paris, France. I moved to Philadelphia in 2009 to live and to work, continuing to photograph portraits and lifestyles for private and corporate clients, social events, and magazine editorials, in Philadelphia and NYC. Several years ago, I began creating artwork beyond his commissioned photo assignments: often combining paint and photographic images, or making digital collages, or transforming photographic images in photoshop and other programs. My new found passion for the world of fine art has been a source of excitement and inspiration reminiscent of the time when I first began the photographic journey years ago.
