Professional Experience and Curriculum Vitae

Sudsies is the friendliest full-service dry-cleaning company on Miami Beach. We're customer-friendly, luxury-friendly, and eco-friendly. With our sister company, Rugsies, we can clean everything from the shirt on your back to the carpet under your feet.

We're known around town for our sparkling smiles. And after 25 years of delivering service with a smile, the Sudsies Smile has become its own brand and symbol. So, whether you see it when you enter our boutique, spot it on our delivery vans, or proudly wear it, the Sudsies Smile is our way of showing you we care about your needs and want to provide the best possible experience.

We have stand-alone boutiques in Miami Beach, North Miami Beach, the Design District, and Ft. Lauderdale. And we pick up and deliver all over Dade, Broward, and Palm Beach counties. That means the Sudsies vans motor all over the area six days a week right to the doors of your home, office, yacht – wherever you happen to be. How's that for customer-friendly?

Sudsies offers couture and luxury brand care services. Managing couture garment cleaning is something each member of the Sudsies team takes very seriously. We follow a methodical five-step process that includes hand-treating, hand-cleaning, hand-repairing, and hand-finishing your garments to preserve their ultimate look and longevity. We handle special occasion wear, alterations, restorations, and preservation too.

When other dry cleaners tell you they're green, it's probably just with envy. That's because Sudsies is the eco-friendliest dry cleaner in the entire state of Florida. Our practices and policies have earned us a 5-leaf rating from the Green Cleaners Council. And we can proudly say we're the first and only dry cleaners in Florida to receive a perfect rating! We invest heavily in new technology, state-of-the-art cleaning and finishing equipment, and processes endorsed by the EPA Design for the Environment program (Dfe). We use low-water-usage equipment and chemical-free hydrocarbon solvents. We've implemented a plastic hanger recycling program and ongoing eco-employee training. We've also installed specialty lighting in all our stores. Every detail of our operation takes the environment and sustainability into account.

To find a one-stop-shop for dry cleaning, tailoring, and alterations, visit the Sudsies nearest to you. Your clothes will love us!
