Professional Experience and Curriculum Vitae
My artwork is predominately inspired by urban Australia. While I think that most urban cultures do have some similarities... an element of the underworld, sex, drugs, and violence, I think for the most part it is about having fun and about love. Love for your family and friends - whatever form they may take. All I want to do is share our culture and put a little Australian twist on it
I hope the world enjoys it.

Previous Clientele
Please kindly get in touch for more information.

Awards and Accolades
Most of it is made up, so don't worry.

Awards and Accolades
Wish I had some.
