Professional Experience and Curriculum Vitae

I am a Seattle-based graphic designer specializing in brand development, art direction and marketing creative. Although of late, my main focus has been designing for a range of Healthcare clients, I have 26 years of experience developing marketing campaigns across a wide range of industries (including high tech, service, financial, manufacturing, non-profit, retail, and aerospace). For 12 years I worked in an agency setting, so have held many types of positions that touch areas of design, including copy writing, project management, sales promotion, etc. These experiences allow my current clients to have a soup-to-nuts solution for their marketing and design needs, under one roof, without paying the overhead of a larger agency.

Previous Clientele

Hundreds of health care, non-profit, high tech, aesthetic, aerospace, service, retail and software clients across the US and Canada.

Awards and Accolades

Awards and Accolades

"Tami is a brilliant designer. I'm always excited to see her latest creations because I know they will be stunning! In addition, she is an expert in medical marketing and has a great ability to listen to her clients' objectives and deliver an effective campaign. She's a hard-working, savvy business person and dedicated team player." Cindy Andrew, Marketing Operations & Project Management

"It is with great pleasure that I recommend Tami and her company. She was instrumental in developing a custom loyalty program for our company, that has overwhelmingly exceeded our expectations. Not only has this improved patient retention, it has allowed for mutual success for both our clients and our practice." Charlie Sheridan, Director & Practice Manager, Marina Plastic Surgery
