Professional Experience and Curriculum Vitae

After working as a graphic designer for 25 years and creating everything digitally, I lost my love for drawing and painting. It was only after meeting another artist online and setting ourselves creative challenges that I rediscovered my passion for art.

We set up a creative podcast and website encouraging others to be creative called “Kick in the Creatives.”

Since then haven’t stopped drawing and painting. I love working with mixed media and creating semi-abstract faces.
