Professional Experience and Curriculum Vitae

Technicon Design has two core businesses:

To develop and manage complex design projects
To source and manage top class design specialists

Drawing on over 35 years of experience, our mission is to continue to offer superior services to customers worldwide. We have studios in France ,Germany, USA , China and the UK.

Previous Clientele

We work with almost all the major car manufactures across the globe and are diversified into transport and product design , digital modelling and visualisation.

Our current client list includes:

Citroen,peugeot, DS, Volkswagen, Ford, Louis Vuitton, Autodesk, Faurecia, Koenigsegg among others.

Awards and Accolades

Technicon design's outstanding creative resources and facilities will give your projects a real and immediate competitive edge. Technicon Design delivers superior results through early integration of research, design, design development, engineering and management processes.

Innovative solutions generate unique characteristics to achieve distinctively stylish and desirable end product.

Technicon Design has a long standing track record of collaborative projects with clients stretching back for over a quarter of a century. These have been completed either at clients premises or at one of our studio locations worldwide.

Within our Studio facilities we have demonstrated our expertise by developing our in-house projects.

Awards and Accolades

Winner of an International Yacht & Aviation Award 2014 for our IXION windowless jet concept, in the exterior design concept category.
