Professional Experience and Curriculum Vitae

i am a graphic designer cum coffee barista who lived in an urban city near Kuala Lumpur, i love to draw and doodle different thoughts of mind in my little yellow Archie Grand notebook, it keeps me dreaming. i always lookout for nice crafted art pieces or postcards for my collection, i do not limit myself in any form of art and design, i think being a designer nor a barista, you gotta have a heart in your work, or else a career without passion does not really keep you awake.

Previous Clientele
