Professional Experience and Curriculum Vitae
Temporary Showroom is a full-service press, PR and sales agency based in Berlin with a focus in fashion. Established in 2006, Temporary Showroom specializes in both upcoming German and young international designers. Unlike traditional PR services, Temporary Showroom provides clients with innovative and unconventional strategies in order to successfully promote clients and create brand awareness. Throughout the years, the agency has successfully presented labels at several tradeshows and has provided fashion show production services to its clients, including participating in the official Mercedes-Benz Berlin fashion week. Other trade show and fashion events have been held in Düsseldorf, Warsaw and New York.

The concept of the Temporary Showroom SHOP provides clients with the opportunity to have a direct point of sale location for its customers. The term "temporary" refers to the transformation from shop to showroom during fashion week in Berlin and other special events held at our location.
