Professional Experience and Curriculum Vitae
Jonathan’s got a trademark style of juxtaposing the ordinary with the offbeat and a reputation for being super down-to-earth and a born (humble) creative. Whether he’s shooting portraits of sinners, saints, doctors, rockers, blue collars or white, his approach is the same: find the balance between too little and too much. Force parameters to force creativity. And with a looking-glass take on time and good judgment, he sets himself apart.
