Awards and Accolades

Timeline
2011

Working on illustrations for advertising, and preparing my future exhibition.

2010

Integrated an agency based in NYC, representing award-winning talents for more than 20 years.

Touring exhibition in Asia, Australia, and Europe.

2009

Living in Bali where the rice is cheap and the sky high...

2008

I live in Bali (Indonesia), where the water is hotter and the girls cuter! I mainly work on my illustrations for various clients in USA and Europe (which include a monthly feat. in Complex), but I'm also in charge of the "visual arts" section of ACCLAIM in Australia, and I'll soon start doing the art direction of a new art gallery in Paris.

2007

I was living in Sydney where (beside my illustration shit) I took the Art Direction of the Autralian & New Zealander "street lifetyle magazine" ACCLAIM, working with my longtime partner in crime Pierre.

2006

Working freelance on various projects like a line of skateboards visuals, illustrations for tons of magazines, some fashion brands identities, and advertising campaigns... Plus I was based in Buenos Aires (Argentina) where the meat is better.

2005

Art Associate for WAD magazine.

As an international reference for urban (life)style and culture, WAD was an editorial platform for exhibiting the work of photographers, artists, and designers linked to the fashion world. Then I quit my job to spend the next 6 months living in Brazil, um pais de todos.

2004
