

Professional Experience and Curriculum Vitae

Discovering my talent for creativity has definitely been a defining moment in my life, 10 years later it remains the thing that drives me. I had the opportunity & privilege to work in a myriad of different fields. No project is too big or small for me because I love challenging myself creatively with new techniques & experimenting with new styles. Although my field of choice is motion graphics & video production I'm trying not focus on the medium as long as the final goal are well-balanced, beautiful and meaningful visuals.

Today I'm the co-owner & the creative director of Ploha creative studio, a multidisciplinary studio founded in 2011. in Zagreb. Our team is a group of talented experts ensuring client expectations with the best solutions in a wide scope of creative fields. This is my biggest role as of yet, although it's sometimes challenging I found that it's a platform for further development of my skills & a unique visual language.
