## Professional Experience and Curriculum Vitae

Have been into photography since I was a kid. I have worked as a photographer for several magazines and newspapers. From portraiture to interiors, from documentary to fashion and much more.

I see photography as the means to preserve history to serve the future, which has to be done now. It's a big responsibility which should be well considered for the ultimate result.

I also think photography can be the most immediate way to communicate to your audience. It can turn the viewer into a witness and will leave him resting assured.
