Professional Experience and Curriculum Vitae

I think I'm pretty lucky. Having a job that is also my passion, where there is room to evolve, experiment and be consistently challenged while capturing the stories behind some incredibly interesting people, has been quite the experience.

Each shoot brings with it a different challenge so I make it my goal to strategically collaborate with each client, genuinely connect with my subjects, spot opportunities quickly, meet the tightest of deadlines and make even the most camera-shy feel like rockstars.

Consistently focusing on the details while appreciating the bigger picture allows me to produce compelling imagery while providing exceptional service, on time and always within budget. Of course it helps that I always play nice and make a stellar cup of coffee.

When I'm not behind the camera, a few other life essentials that make my life go round include my family who are nothing but joy, laughing a lot, attempting to make tofu taste like something other than tofu and road trips in pursuit of the best views the country has to offer.

I'd love to hear from you so when it's time to start planning the next photography project, please get in touch.
