## Professional Experience and Curriculum Vitae

Starting out in the Wedding Industry as an Assistant & Second Shooter, I learned the basics of Photography & Wedding Photography with priceless on-the-job training while I studied Advertising Design & Dance at The University of Tampa. A move back North brought me to Washington, DC where I worked as the in-house Graphic Designer for Joy of Motion Dance Center. When I wasn't marketing, promoting and shooting dance performances I was obsessing over photography, which lead to shooting many friends in the head... and by that I mean head shots!

After going out on a few limbs, I've been fortunate enough to work with some incredible people: Actors, Dancers, Singers, Street Performers, Chefs, Executive Directors, Recording Artists, Business Owners, Pets and Pet Enthusiasts, Couples, Families, Educators and more! I've photographed a wide range of people and have collected an enormous amount of images that document my adventures.

As an event photographer, I've covered numerous events including Dance Performances, Weddings, Parties and Concerts. I'm looking forward to meeting and photographing as many people as I can.

I am currently based out of Annapolis, MD, but have been found shooting in cities like NYC, Philadelphia and Los Angeles!

## Previous Clientele
