Professional Experience and Curriculum Vitae
Custom Buckles Australia offers a premium range of custom designed belt buckles. Manufacturing locally in Australia since 1982 our custom designed buckles come in all shapes and sizes to express your unique identity. Pewter is a premium alloy and is one of the best metals to create highly detailed belt buckles due to having a lower melting point. We ensure every item is polished and finished to perfection before it is packaged and delivered to you. We love creating unique designs and interesting concepts that show your unique identity. 3D printing enables us to do this with lower set up costs. Custom belt buckles are great for company culture, safety awards and to celebrate LTI free periods. To make an enquiry please call or send us an email, we would love to hear from you.
