Professional Experience and Curriculum Vitae
Tropical Fuzz is a creative design studio founded by Brazilian visual artist and musician Fabio Couto.

Our ethos is rooted in creativity with purpose. Design should not just look good—it should spark emotion, provoke thought, and tell stories that resonate. We work closely with clients, artists, and cultural communities to develop work that feels true to their voice while pushing creative boundaries.

Our mission is simple: To create design that connects, inspires, and leaves a lasting impression.
