## Professional Experience and Curriculum Vitae

A photographer based in Singapore, Deng Weizhong picked up photography by chance and subsequently his first camera during an exchange program to Japan. That same year saw him taking a series of trips to nearly 30 prefectures covering most of Japan's rural and urban landscapes, and also resulted in several successful solo photography exhibitions in Japan.

His works are known for their simple and refined elements and are characterised by a combination surreal and dreamlike qualities.

Despite having only 3 years of experience, Weizhong has already earned a number of accolades under his belt.

In 2010, he was awarded the runner up in the Celebration Asia! category in the Travel Without Borders photography competition organised by award-winning travel magazine Asian Geographic Passport. His works were also showcased at the OneAsia Festival 2010 organised by renowned Asian Geographic magazine and were also selected to be on display at ION Orchard's art gallery, ION Art, Singapore in the CapitaLand-National Geographic Channel photography contest.

He is currently available for freelance and commission work.
