Professional Experience and Curriculum Vitae

I am Carla Turchini, a bilingual graphic designer. I have worked in the graphic design sector for over 20 years, and I love my job.

I started my studio, Turchini Design, in the early 1990s after having freelanced for five years for the graphic design department of the Inner London Education Authority.

In all these years I have worked for UK educational publishers, national and international UK companies, small local companies and charities. I also have worked extensively for The British Museum Press. The Museum Guide, on sale at present, was designed by me.

I believe in fairness, loyalty and cooperation and I do my very best to promote good design and ensure that graphic design remains a qualified profession. I deplore hypocrisy, malevolence and lack of empathy.
