Professional Experience and Curriculum Vitae

My name is Alvaro Lizano, I'm from Costa Rica and I'm 27 years old. Since my adolescence I was deeply influenced by Cyberpunk Culture, Pop Art and vintage style. So my art work revolves around such creative trends. Also the philosophy of the Fourth Way has been influential in the message I try to print on each of my works. Basically my work trying to show cyber reality. Where God and the mystical is reduced to matrices and algorithms.
