Professional Experience and Curriculum Vitae

With a background in automotive and industrial engineering in blue chip companies, I took over Upton Metal Works in 1993.

Upton Metal Works is a well-known metal fabrication company making traditional and stainless steel balconies, railings, staircases, gates etc for homes and business projects in South Devon since 1953. In to-day's challenging market we pride ourselves in offering value for money with no compromise on quality and we work closely with clients and architects to achieve a high standard with optimum results. Contact us by telephone or e-mail for a no-obligation Free initial site visit, drawing/design and quotation.
