Professional Experience and Curriculum Vitae

I live and work from my home in Trivandrum, the capital of the state of Kerala in India.I find inspiration from the news papers, books ,cinema, photographs and people that I come across every day. My works till now have been direct and objective. To bring before my viewers the life and beauty of very ordinary experiences which we often fail to notice in our daily life has been my constant effort through my works of art.
I use water colours, acrylics,oils,pastels and charcoals .
My sculptures are mostly in bronze though I like to work in wood too. I have done works in fiberglass,wood
Creating each work has given me great joy. I hope I have succeeded in passing on a little of that to my viewers.
Most of my works can be viewed at http://www.usharamachandran.com.
