## Professional Experience and Curriculum Vitae

I usually work in the art/design sphere within a project team of architects, engineers, developers producers etc. My experience is almost exclusively in themed entertainment and retail providing concept and design illustration and art direction.

I have traditional technical hand drawing illustration skills as well as developer level computer graphics abilities. I Can also provide website presentation development and publishing services on my own dedicated internet cloud servers. This is due to recent work becoming more and more geared to producing illustrative graphics for webmedia and online applications for architects and real estate developers and builders.

## Previous Clientele

Walt Disney Imagineering  
California Museum of Science and Industry  
Universal Studios Entertainment Group  
Warner Bros. Studio Stores  
Beijing Hualian/Carlari  
Glendale Galleria  
MCM Group  
Hettema Group  
Contour Entertainment

## Awards and Accolades
