Professional Experience and Curriculum Vitae

Me summarized:

Perfectly at home cropping and editing photos at my computer, I am happiest when I am crafting still and moving images.

Like a complex photoshop assignment, I am woman with many layers.

If were an indian chiefs daughter, my name would be "paints with light."

Some people boast about living their lives to the full. I'm happier capturing those lives on film.

In my view, anything lesser than a full frame, is crop.
